Object Oriented Programming in C#

Exercise: FizzBuzz

Instructions

Exercise: FizzBuzz

To complete the exercise, open the Visual Studio solution and write code in the PrintNumbers() method provided in the Program class that will meet the following requirements:

- Write a loop that outputs the numbers from 1 to 100 in the console.
- If the number is a multiple of 3, print the word "Fizz" next to the number.
- If the number is a multiple of 5, print the word "Buzz" next to the number.
- If it is both, print "FizzBuzz" next to the number.
